

# Table of Contents

*David F. Treagust*

Foreword ..... 9

*Hans E. Fischer, Knut Neumann, Peter Labudde and Jouni Viiri*

1. Theoretical Framework ..... 13

*Knut Neumann, Hans E. Fischer, Peter Labudde and Jouni Viiri*

2. Design of the Study ..... 31

*Christian Spoden and Cornelia Geller*

3. Uncovering Country Differences in Physics Content Knowledge  
and their Interrelations with Motivational Outcomes in a  
Latent Change Analysis ..... 49

*Anne Beerenwinkel and Johannes Börlin*

4. Surface Level: Teaching Time, Lesson Phases and Types of Interaction ..... 65

*Cornelia Geller, Knut Neumann and Hans E. Fischer*

5. A Deeper Look inside Teaching Scripts:  
Learning Process Orientations in Finland, Germany and Switzerland ..... 81

*Jussi Helaakoski and Jouni Viiri*

6. Content and Content Structure of Physics Lessons and Students'  
Learning Gains: Comparing Finland, Germany and Switzerland ..... 93

*Johannes Börlin and Peter Labudde*

7. Practical Work in Physics Instruction: An Opportunity to learn? ..... 111

*Melanie M. Keller, Knut Neumann and Hans E. Fischer*

8. Enthusiastic Teaching and its Impact on Students' Interest and Self-Concept:  
An Investigation of German Physics Classrooms ..... 129

*Jennifer Ergönenç, Knut Neumann and Hans E. Fischer*

9. The Impact of Pedagogical Content Knowledge on Cognitive Activation  
and Student Learning ..... 145

*Carolin Junge, Matthias von Arx and Peter Labudde*

10. Classroom Management ..... 161

*Matthias von Arx*

11. Constructivist Approaches to Teaching .....177

*Peter Labudde, Jouni Viiri, Hans E. Fischer and Knut Neumann*

12. Summary and Discussion .....193
