

# Contents

|   |     |
|---|-----|
| Preface.....  | 7   |
| <i>Marc J. de Vries</i>   |     |
| The T and E in STEM: From promise to practice.....  | 11  |
| <i>Victoria Adenstedt</i>   |     |
| How boys' and girls' technical interest differs: A research study.....  | 21  |
| <i>Johannes Deutsch</i>   |     |
| Exploring energy related knowledge in technology and natural science education .....  | 45  |
| <i>Tatiana Esau</i>   |     |
| Problem Solving in Technology Education .....   | 61  |
| <i>Katie Klavenes</i>   |     |
| Empathiser, Systemiser or Balanced: Understanding pupils' "Personality Types" and what this says about their enjoyment of school subjects .....                     | 81  |
| <i>Alexander Koch &amp; Lena Wenger</i>   |     |
| Understanding Tech Socialisation and its Impact on Tech in the Classroom: An Empirical Pilot in Assessing Student Teachers' Biography and Instructional Belief..... | 97  |
| <i>Jennifer Stemmann</i>  |     |
| Is problem solving competence in handling everyday technical devices a two-dimensional construct? .....   | 115 |
| <i>Leo van Waveren</i>  |     |
| Trainees view on the different emphasis of topics in VET between dual partners in Germany.....  | 135 |
| <i>Charles Max</i>  |     |
| An activity theoretical research lens on inquiry-based learning .....   | 147 |

|  |     |
|--|-----|
| <i>Stefan Kruse</i>  |     |
| Development of a concept for promoting comprehensive<br>technological education..... | 169 |
| <i>Benedikt Schwuchow</i>  |     |
| Activity Orientation in Engineering Education.....                                   | 195 |
| <i>Julia Steinfeld</i>   |     |
| Teachers' Scaffolding in Problem Solving Tasks.....                                  | 207 |
| List of Authors .....  | 221 |
